

ReNew becomes India's highest-rated pure-play renewable energy company in S&P Global's Corporate Sustainability Assessment

- *ReNew has scored 71, registering a remarkable ~30% enhancement in its score*
- *This achievement places ReNew in the top 10 percentile of the global energy sector*

Gurugram, India, Jan 09, 2025: ReNew Energy Global Plc ("ReNew") (NASDAQ: RNW), India's leading decarbonization solutions provider, has secured the highest score for a pure-play renewable energy company in the Indian power sector in the recently released S&P Global Corporate Sustainability Assessment (CSA) results. Demonstrating a remarkable leap in its Environmental, Social, and Governance (ESG) performance, ReNew scored an impressive 71 out of 100, registering an extraordinary growth of almost 30% from its FY 2023 score of 55.

This achievement places ReNew in the top 10 percentile of the global energy sector* and marks a ground-breaking milestone as one of the two energy companies in India to surpass the '70' score threshold.

Speaking on this milestone, **Vaishali Nigam Sinha, Co-Founder and Chairperson - Sustainability, ReNew**, said, "Becoming the highest-rated pure-play renewable energy company in India in the S&P Global CSA ratings is a defining moment for ReNew and solidifies our position as a sustainability leader in the Indian power sector. This achievement highlights our constant focus on sustainable practices, transparency, and fostering a robust ESG culture. It reflects our unwavering commitment to setting new benchmarks for the energy transition in India."

ReNew's impressive performance in the CSA reflects its commitment to sustainable and responsible business operations. The Company's adoption of Integrated Reporting and its continuous improvements in transparency and disclosures have played a key role in achieving this distinction.

As one of the world's oldest and most trusted ESG rating systems, the S&P Global CSA underscores ReNew's leadership in decarbonisation and its role as a pioneer in India's energy transition.

Other events

ReNew signed 3 Power Purchase agreements (PPAs) with a combined Renewable Energy capacity of ~1.1 GW, taking its total portfolio as of January 8, 2025, to 17.4** GW on a gross basis.
